Matric certificate
- University Of South Africa (UNISA)**
Diploma in Tourism Management

Skills

- HTML5
- JavaScript
- CSS
- Problem-Solving
- Basic Design Skills
- Version control (Git)
- Creativity
- Framework (React.js)
- WordPress

Projects

- Netflix Login Page Clone**
Netflix Login Page Clone is a responsive web project built with HTML and CSS that replicates the official Netflix login page. It features a sleek and modern design with a user-friendly interface, including input fields for email and password, a "Sign in" button, and additional options like "Remember Me" and "Need Help?". The design is fully responsive, ensuring a seamless experience across different devices.
- Password Generator**
Password Generator is a simple web application built with HTML, CSS, and JavaScript that allows users to generate strong, random password. Users can customize the password length and include options such as uppercase letters, numbers, and special characters. The interface is clean and user-friendly, ensuring quick and easy password creation for improved security.
- Alarm Clock**
Alarm Clock is a web application built with HTML, CSS and JavaScript that allows users to set and manage alarms. It features a simple and intuitive interface where users can input a time, set an alarm, and receive notifications when the alarm goes off. With a responsive design, it works smoothly on both desktop and mobile devices, making it a convenient tool for time management.
